

In the days from December 25-31, 2003, I had a time I call my '7 Day on the Mountain With God.' In those times He told me many things. He gave me a vision of a man (me) who was not religious, not famous and not rich, leading mankind back to the Garden of Eden (Heaven on earth). He inspired in me two divisions for all the changes in this world He would bring about, through me:

- [Eden Project](#) - all positive changes for human beings
- [Noah Project](#) - all positive changes for animals

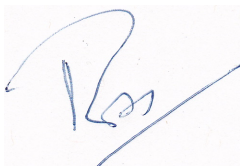

If you think about it, could there be any better names for God's works as related to humans and animals than these names?! My inspiration and work ethic come from the fact that not only do I believe, but I **know** that everything He has told me will come true. I have been on this journey for over 20 years now and as I have progressed, things have been coming into better focus and a greater degree of organization.

- [G3](#) - Changing the World - this is the global part. G3 stands for God's Genuine Gift, which is the second coming of Christ and the descent of Heaven to earth for all of mankind for eternity.
- [The NuVoWay](#) - Find the greatness within - this is about helping every person we touch with our program to live out their best lives. It is a Holistic approach involving physical, mental, socio-emotional, spiritual and financial health. The plan I have involves taking our program out to every person in every community we enter and ultimately to reach every community in the world.
- [NDG Project](#) - Transforming our community through love - this is about redesigning society for ideal outcomes in every area of human and animal life. In essence, it is the transformation of NDG to Heaven (on earth) and then duplicating our successes to communities all across the world - until every square mile of earth is Heaven!

While I have arrived at this point, developing everything for a market economy and for it all to make financial sense, the latest evolution of my program has ended up taking a considerable turn. My goal is to transform this world into Heaven on earth by all I am involved in. As such I must find a way to ensure that everything I am developing is available to every person on earth at no charge, now and for always! I even know what the necessary changes to this world include in order to do so. We must develop a moneyless society. Not a cashless society, but one where every person has access to everything at no cost, simply because they are a member of God's family.

This is where my belief in and understanding of parallel universes, parallel earths and twin selves comes into play. This entire element of science was postulated by great minds like Einstein and Stephen Hawking to name but a couple. In the great beyond exists an infinite number of parallel earths, all with an infinite number of parallel 'twin selves' representing every possible direction our life could have taken us in. Using the example of NuVoWay LifeStyle Centres, I came up with this idea in 2001. In this universe, nothing happened with my idea. In a parallel universe/earth, someone with power and sway may have taken my idea and run with it, developing Centres all across the world in the years to follow as is my idea now. What this means is that twenty years down the road from that time (2003 --> 2023), my objectives for 2050 may be near-realized in a parallel earth! So the question then becomes; 'if this exists in a parallel universe, how do we get there? The answer is transcendence! The vehicle is God. I have given a date of July 1, 2025, for many of my visions to be realized. My understanding of what will happen on that date is that everyone who believes in me and everything I am speaking of will transcend to a parallel earth where everything I have predicted already exists! [G3 Global Corporate Headquarters](#), [10,000 G3 Destination Locations](#), [Come Away With Me](#) the movie as well as many other thoughts/ideas. This world will continue and every person who did not believe in me will remain here, will not have access to everything I have envisioned/dreamed of and will consider me a complete and total failure!

All my best,

Your life is your message
